INVITATION

to the 11th

International Scientific-Practical Students Conference

STUDENS. SCIENTIA. SALUS. 2026

15 May 2026

The aim of the conference

To develop scientific insights into the interaction between health, diversity, and inclusion in the context of global events, with the goal of promoting a sustainable, open, and healthy society.

Directions of scientific presentations

1. Analysis of the accessibility of beauty and wellness services and their impact on individual well-being in a changing society
2. Strengthening functional health and physical activity in the context of social inclusion
3. Integrated healthcare and the promotion of equality among migrant and local communities
4. Strengthening social support and inclusion mechanisms for societal cohesion
5. Health prevention and the organization of services

Conference Organizing Committee
